 Feelings Expressed ✓
 Exposure ✓
 Focus ✓

cool / warm

Do not lose this worksheet or you will lose 50 points on leadership word dependability.

Photograph Period 2 – Reflection

I like this photo because of the big to small aspect. The shoes are three times as big as the ball. The main idea of the photo is to have two-objects one being bigger than the other and I think I accomplished that task. I like how the shoes look used and beat up. Its gives off the sense that whoever was wearing them was playing the sport. I think this shot will help me become a better photographer because of all the skills I used and learned. These skills will stay with me forever.
