

RE: **Diabetic Orders and Supplies** needed for the new school year.

Dear Parents/Guardians of: _____

Advance planning is key to being ready for the next school year. You can get diabetic orders needed for school in July and August if your child has an endocrine clinic appointment those months. Just let the clinic know that you need the orders for TAF@Saghalie and they can fax them to us at (253) 945-5080. If not, please contact your clinic to have the orders faxed. The earlier the better. Remember, they have a large backlog of requests the week before school starts.

***MEDICATIONS NEEDED:** Each must be labeled with child's full name.

- Insulin: Short acting in cartridges, or extra bottles for a pump
- Glucagon

***SUPPLIES NEEDED:**

- Ketone test strips
- Insulin Pen
- Extra insulin cartridges
- Pen tip needles
- Glucometer
- Extra batteries
- Test strips
- Lancets needles
- Glucagon
- Glucose tablets

***SNACKS:** There is a refrigerator in the health room.

- Snacks your child likes!
- Juice boxes and other quick acting carbs ie: Fruit snacks, Starbursts
- Protein ie: Cheese, peanut butter, peperoni sticks, nuts

*** BEFORE YOUR CHILD STARTS SCHOOL, ALL MD ORDERS, MEDICATIONS AND SUPPLIES, MUST BE PROVIDED TO THE NURSE.**

Thank you for your support! If you have any questions, please let the Health Room know.

Sincerely,

Jessica Crane, BSN, RN

School Nurse

TAF@Saghalie Thursday, Friday & every other Wednesday, 253-945-5009
