Federal Way Public Schools – Wireless Expansion

RFP FWPS – 021215 WLAN Expansion

Release Date: Thursday, February 12, 2015

Responses Due: March 12, 2015

Introduction

Federal Way Public Schools (FWPS) is requesting proposals to expand wireless density at FWPS schools to accommodate our mobile device initiative. The District is seeking the services of a qualified Service Provider(s) to install inside wiring, provide switches and/or access points with controller in order to expand wireless services at 38 schools. While the current network supports Wi-Fi enabled devices in most classrooms the District intends to expand the wireless to support density for the volume of mobile devices being used in our schools.

This RFP contains instructions for submitting a proposal, the procedures and criteria by which a Service Provider(s) will be selected and the contractual terms by which the District proposes to govern the relationship between it and the selected Service Provider(s). All pricing must be broken out by school location.

Evaluation Criteria

The District will evaluate all Proposers. Evaluation of the proposals received in compliance with the RFP instructions will be performed for the purpose of selecting a Proposer who best meets the needs of the District. The Proposer(s) with the highest scores and meets USAC E-rate guidelines will be selected as the final Service Provider(s). In evaluating RFP responses, the District will award points to each response up to the maximum points that are listed for each of the following criteria:

- Price of Eligible Service- 30%
- Compatibility with existing wireless and network infrastructure – 20%
- Prior experience with district – 20%
- E-rate Qualifications and References – 20%
- Local Service Provider – 10%

Maximum 100 points

Selection Process

Proposals will be evaluated based upon, but not limited to, related experiences of the respondents, Service Provider references, and overall proposal content, as outlined in the Matrix.

Proposals will be reviewed by District personnel.

Given that three (3) different services are sought, multiple awardees may be selected. It is also possible that one (1) service provider may be able to perform all three (3) services, and in this instance only one awardee may be selected.

The District reserves the right to seek additional information and/or clarification from any Proposer, the right to reject any and all responses received with or without cause, the right to negotiate all final terms and conditions of any agreement entered into with any Proposer that submits a response and also to waive any irregularities or informality if deemed to be in the best interest of the District.

References

Please submit at least two (2) references of recent work, within the past 3 years, with organizations of similar size and located within the state of Washington. Reference information must include: entity name; address; phone number; and name of contact person.

E-Rate Requirements

It is the intention of FWPS to apply for universal service support under the Schools and Libraries support mechanism (E-rate program) for the services that are the subject of this RFP. This proposal will be funded only if approved by USAC and if USAC appropriates the funds. Term of this agreement shall be July 1, 2015 through June 30, 2016.

Any Service Provider responding to this RFP must be an Eligible Services Provider as defined under the Federal Communication Commission's E-rate program and will be required to submit their assigned SPIN (Service Provider Identification Number) and FCC Registration Number as part of its response along with a copy of their Form 498—Service Provider Information Form. If you do not have a SLD SPIN number, or FCC Registration Number, you MUST obtain one before you respond to this RFP.

The district plans to use E-rate BEAR invoicing for these services at the discount rate indicated on the Funding Commitment Decision Letter.

Communication/Questions
