

LAKE GROVE 2018-19 DISCIPLINE PLAN

Create a culturally responsive, restorative classroom community: *Encourage students to care for one another and be responsible for each other inside and outside of the classroom. Provide consistent routines that help students feel valued and safe, and accountable to one another. Design a safe and welcoming classroom environment. Co-create classroom agreements and model/teach desired behavior. Use PBIS Tier 1 Lesson plans. Teach Second Step curriculum with fidelity. Convene community meetings and use Restorative Practices.*

This discipline plan is a general guideline. Every incident and scholar is unique. There is no one size fits all solution. The LGV Support Team is here to construct support plans with you and to assist with two-way communication with families.

When a scholar is struggling, ask for help early and often.

All LGV staff will work diligently to ensure interventions are equitable, culturally responsive, asset-driven, and communicated positively and transparently with scholar’s parents/guardians and our LGV support team.
