

# Principal's Message

July 22, 2020

Dear Sunnycrest Roadrunners and Families,

Today our Superintendent, Dr. Tammy Campbell, released the news that Federal Way Public Schools, along with surrounding districts, will be starting the year with 100% remote instruction.

This announcement is in response to very real concerns about schools being possible super spreaders of Covid-19. While children may not suffer the virus in the same way that adults do, they do carry the virus and spread it to others. The health and safety of your family and our staff is a high priority for us. We also prioritize providing your children with a high-quality responsive public education.

Remote learning in the fall will look different from remote learning last spring. We have used the last six months to learn more about how to best provide children with meaningful learning in a remote classroom.

Highlights of these changes include:

*Launchpad for Learning*, a one-stop online will easy access to school application and educational resources.

Increased access to student loaner laptops.

Parent workshops and partnership guides for navigating online learning and supporting the social and emotional well-being of our children.

Right at School will be providing an array of childcare option for families.

I am also committed to providing you with weekly communications during the school year, as well as, twice month coffee with the principal meetings in both English and Spanish.

While we are making the best of the situation, please know that every staff member at Sunnycrest is looking forward to a return to in-person instruction as soon as the rate of infection has diminished.

You can count on me to provide you with updates for the fall. Lastly, I want to highlight ways that you can support your child's success in the fall.

### **Summer Learning**

You should have received a summer learning packet in the mail. If you did not, you can access that packet electronically here:
